Registration Request

Dear Parent / Guardian:

As part of your child's school health record, we will need to have the following information on your child before June if you did not bring it in today:

1. Physical examination

Each child entering school for the first time must, according to NH Law, have a physical by a health care provider within one year prior to entering school. If your child has had a physical exam within the last 12 months, please have your health care provider complete the physical exam form given to you today. Otherwise, your child will need to have a physical before September and the form will need to be returned by the first day of school. If your child has special health needs and will require assistance during the school day with medication administration or special procedures, please contact me @ _____ to discuss this further.

2. Immunizations

No child will be allowed to start school if their immunization dates are not on file. If immunizations are incomplete, they must be updated prior to the first day of school.

If you have any questions or require assistance, please call your school nurse at the school your child attends or Nancy Wells, Supervisor of School Health at 624-6466 ext. 304.

Thank You,

School Nurse
